

myFirst CareBuds true wireless headphones, Cotton Candy Mix

253231

Introducing myFirst CareBuds - earbuds designed specifically for kids! The myFirst CareBuds feature a maximum volume of 85db, ensuring that kids won't be able to turn up the volume to potentially harmful levels. They also come with various size eartips, ensuring a comfortable fit for kids of all ages. CareBuds also have a unique feature that automatically switches them to transparency mode when the earbuds detect body movement. This is a crucial safety feature for kids, as it allows them to hear their surroundings while walking on the road or engaging in other activities.

PRODUCT DETAILS

Experience clearer audio

The new ENC (Environmental Noise Cancellation) Microphone in CareBuds uses special algorithms to cancel out background noise and improve voice quality during calls. This technology also helps to save battery life, so kids can enjoy listening to music or stories safely and comfortably, even in noisy places.

Smart transparency mode

A unique feature that automatically switches them to transparency mode when the earbuds detect body movement. This is a crucial safety feature for kids, as it allows them to hear their surroundings while walking on the road or engaging in other activities.

85 dB max volume

The myFirst CareBuds are designed with the safety of young children in mind. With a maximum volume of 85db, these earbuds are specifically engineered to ensure that kids won't be able to turn up the volume to potentially harmful levels.

Easy touch control

The user-friendly touch controls allow kids to play and stop music, pick up and end phone calls, and manually activate the transparency mode. This feature enables children to operate the earbuds with ease and convenience, without having to fumble with complicated buttons or controls.

Kid-size comfort

Comes with six different sizes of ear tips, ranging from large to extra small, ensuring a perfect fit for all ages of kids. With the right size ear tips, the myFirst CareBuds stay securely in place and provide a comfortable listening experience for hours on end.

This feature ensures that kids can wear the earbuds comfortably and safely, without the risk of them falling out or causing discomfort.

Tech specs
Each earbud

- Dimension: 19*19*36.65mm
- Net weight: 5g
- Battery capacity: 45mAh
- Battery life: 6 hours
- Battery model: LIR1054
- Charging time: 1.5 hours
- Connection distance: 15m
- Water resistance: IPX4

Charging case

- Dimension: 56*50*26mm
- Net weight: 45g
- Battery capacity: 400mAh
- Battery life: 25 hours
- Charging time: 1.5 hours
- USB-C charging: DC 5V
- Water resistance: IPX2
