

myFirst wireless headphones AirWaves, pink

253229

The myFirst Headphones AirWaves is an ideal choice for parents looking to provide their children with enjoyable and safe listening experience. Specifically designed for kids, these headphones offer a maximum volume limit of 85 decibels (dB) and feature an open ear design for hearing both music and their surroundings simultaneously. Moreover, the headphones are lightweight and comfortable for easy portability. Providing up to 18 hours of playback time, parents can rest easy knowing their children can enjoy music for long periods of time without risking their hearing.

PRODUCT DETAILS

Completely safe, open-ear experience

myFirst Headphone AirWaves prioritize your child's safety with an open-ear design that keeps them aware of their surroundings. The ergonomic build ensures comfort, while non-isolating sound technology allows for enjoyable, yet safe, music and gaming experiences. Ideal for active kids, they offer parents peace of mind during use.

Crystal clear sound quality for seamless listening

AirWaves deliver crystal clear sound quality. The precision tuning creates a seamless listening experience, allowing kids to immerse themselves in their favorite tunes, audiobooks, or games. Whether they're in a quiet room or a bustling park, the clarity of sound remains consistently enjoyable. It's an auditory adventure that young ears will love.

Ultra-lightweight for travel

Tipping the scales at just 21.5g, Airwaves are designed for effortless portability. Perfect for everything from the school bus to family vacations, these ultra-lightweight headphones are easy to pack and comfortable to wear. The sleek design fits young heads well, ensuring they're a travel-friendly audio companion for kids.

Flexible, durable, comfortable

Constructed with high-quality materials, AirWaves offer both flexibility and durability. They can withstand the rough and tumble of child's play while maintaining their shape and function. Bend them, twist them, and watch them bounce back, ready for more musical fun. It's a reliable performance that parents and kids will appreciate.

85dB max volume

The myFirst Headphone AirWaves are designed with the safety of young children in mind. With a maximum volume of 85db, these headphones are specifically engineered to ensure that kids won't be able to turn up the volume to potentially harmful levels.

Sweatproof & IPX5 water resistant

Considering the most active of kids, AirWaves are both sweatproof and IPX5 water-resistant. Whether it's a workout at the park, a dance-off, or playtime in the rain, the music doesn't have to stop. Our unique, sweatproof material keeps the headphones functioning perfectly, even in damp conditions. It's worry-free enjoyment for energetic kids.
