Style

SINGLE , DOUBLE

PRODUCT DETAILS

This Momcozy wearable breast pump lets you pump hands-free wherever you are. Its lightweight, cordless design sits neatly inside your bra so you can go on about your day. Its micro-vibration tech helps encourage natural milk flow, so pumping feels more comfortable. With three modes and nine levels, you can tailor each session to suit you and pick up right where you left it. And you can use the Momcozy app to adjust settings and track milk volume straight from your phone.

- Its quiet design means you can pump without feeling noticed
- The doubleFit flange adapts to your shape for a more comfortable fit
- Its BPA-free material helps keep your milk safe for your baby
- The USB Type-C rechargeable battery gives you around three hours of use, full charge in 2 hours. Supports 6 sessions per charge.
- The ergonomic design is shaped for comfort while you pump

Features:

- Gentle, Breast-Friendly Pumping: Baby mouth-like suction rhythm, skin-friendly silicone, and 30-minute auto stop help make daily pumping feel gentler and more comfortable.
- Patented DoubleFit™ Flange for a Better Fit: The exclusive DoubleFit™ flange is made to fit more securely and comfortably, helping reduce slips and tugs while boosting pumping efficiency by 28.2% based on internal user feedback.
- Ultra-Light, Hands-Free Freedom: Weighing only 8 oz, M5 Smart fits comfortably in your bra for cord-free, hands-free pumping—so you can move, work, care for baby, or get more done while you pump.
- Personalized Pumping with Flexible Suction: With 3 pumping modes and 9 suction levels, M5 Smart lets you adjust each session to your body's needs, supporting comfortable and efficient milk expression.
- Only 4 Parts to Clean: Made with BPA-free, food-grade silicone and PP, M5 Smart keeps cleanup simple with only 4 washable parts. Parts can be sterilized in 3 minutes and are heat safe up to 100°C.
- Easier Control from Your Phone: Use the Momcozy app to adjust modes and suction levels, track milk output, and view visual pumping stats by day, week, or month—giving you easier control without reaching into your bra.

Charging Note

Do not charge the full pump upside down or with the motor panel-side down. Remove the motor and charge it separately. Keep it dry and away from milk or water residue.

Safety Warning

Do NOT use this device if you have a cardiac pacemaker, implanted defibrillator, or any other metallic or electronic implant, as it may cause electromagnetic interference or serious injury.
