PRODUCT DETAILS

So Much More than a Humidifier

Place a few drops of your favorite essential oil into the aroma diffuser to give your baby soothing sleep, brighter mornings, or to alleviate cold and flu symptoms. The power of aromatherapy vitalizes the spirit and stimulates the senses, keeping your baby calm and clear-minded. You can select a runtime of 2, 4, or 6 hours, or simply leave it on through the night. Connect your smart device via Bluetooth and soothe your baby with lullabies, audiobooks, a personal recording, or their favorite song through high-quality, built-in speakers.

Use the free baby tracker within the HubbleClub app and follow every detail of your child's growth and development. Immerse your baby in a world of aromas to stimulate their mind and body while keeping the nursery at the perfect level of humidity.
