Aiper Scuba S3 – Robotic Pool Cleaner

256013

Colour

PRODUCT DETAILS

Lightweight but Powerful 4800 GPH Suction

Compact and easy to lift with one hand, yet delivers powerful 4800 GPH suction to remove dust, sand, algae, leaves, and fine debris. Dual brushes ensure deeper cleaning in fewer passes.

3.5L Large Capacity + 3m Ultra-Fine Filtration

Features a 3.5L filter basket with dual-layer filtration: 180m filtration for large debris and a 3m ultra-fine filter for microscopic particles, capturing more dirt for crystal-clear water.

Up to 240-Minute Runtime

Enjoy up to 240 minutes of continuous cleaning in Eco Mode, ideal for full pool coverage with fewer interruptions.

JetAssist™ Horizontal Waterline Cleaning

Designed for effective horizontal scrubbing along the waterline to remove oil, sunscreen residue, and buildup.

Full 4-Zone Pool Coverage

Thoroughly cleans floors, walls, waterline, and shallow areas for complete pool coverage.

WavePath™ 2.0 Path Planning

Advanced sensors and intelligent navigation optimize cleaning routes, reducing missed spots and unnecessary overlap.

Smart Waterline Parking

Automatically docks at the waterline after cleaning, making retrieval quick and effortless.

Power That Lasts - High-Capacity Battery

Delivers extended deep-cleaning coverage for pools up to 1,650 sq. ft. with a 10,400mAh battery

5 Cleaning Modes

Choose targeted cleaning for floors, walls, waterlines or full-pool coverage based on your pool's needs.

Easy One-Touch Control

Start cleaning instantly with intuitive controls and hassle-free maintenance.

LED Display Feedback

Simple LED indicators keep cleaning status and operation easy to understand.
