Mill Gentle Air oil filled radiator 1000W, Mechanical thermostat

251973

An oil-filled radiator never looked better – if we dare say so ourselves! The Mill Gentle Air has an elegant, modern design, and resting on a stand it looks as if the heater is gently floating in the air.

Style

ELECTRONIC THERMOSTAT, **MECHANICAL THERMOSTAT**

PRODUCT DETAILS

The portable, stylish heater is quiet and safe to use without supervision. Living up to its name, the Mill Gentle Air is a gentle heat source that neither burns dust nor dries out the indoor air. With its unique closed shape, it spreads the heat around the room a lot faster compared to traditional oil-filled radiators. This makes it heat up a room 29% faster, as the closed shape forces the hot air to rise faster, distributing the heat more efficiently. We call it Mill Heat Boost Technology. Mill Gentle Air 1000W is a great allround heater. This model will keep small rooms heated.

Features

- 1000W
- Mill Heat Boost Technology
- Beautiful design
- Tip-over switch (the heater turns itself automatically off if it tips over)
- Over heating protection (the heater will turn itself off if it gets over heated)
- Easy to use control
- Aluminium feet for that extra quality
- 3 heat settings: 400/600/1000W
