
Mill 1500W Invisible Heater, Energy-Efficient, Bathroom-Friendly, White

253584

Mill Invisible WiFi Panel Heater 1500W is a panel heater made with an integrated WiFi module, allowing you to easily control the heater through your smartphone and set automated heating levels to fit your daily routine. It keeps rooms up to 22m² heated thanks to its 1500-watt output. The removable aluminium foot makes it suitable both as a panel heater on your wall and as a free-standing heater anywhere in the room.

PRODUCT DETAILS

Mill Invisible panel heater. Blend beautifully with your walls.
Mill Invisible Wifi electric panel heaters are designed in Scandinavia and are leading in the home market. These award-winning heaters provide pleasant ambient warmth for everyone in the room in an energy-efficient way. Its elegance is due to the soft, rounded corners and a gently curved front blending almost invisibly with your wall. Use the elegant aluminum foot if you want more flexible portable usage, where you can move the heater around where you need heating. The heaters are equipped with the latest energy-efficient technology and the Mill App makes it easy to control temperatures and energy consumption. The heaters are silent and safe to leave unattended. They can also be used in bathrooms.

A modern electric smart heater that offers a comfortable and energy-efficient heating solution for your home.

Specifications

- Recommended room size: 18-22 m²
- Product size (W x D x H cm): 85,0 x 10,3 x 40,0 cm
- Weight (Kg): 5,4
- Model name: PA1500WIFI3A
- Aluminium heating element: high efficiency and low surface temperature
- 10 heat settings: adjust the wattage to your needs
- Temperature calibration function
- IP classification: IPX4 (Approved for use in bathrooms zone 2)
- Open window function: switches off the heater automatically when a window is opened
- OTA (Over the Air) updates allowing new features to be added to the software
