Aiper Scuba N1 Ultra Cordless Pool cleaning robot

253122

Dive into unparalleled pool cleanliness with the Scuba N1 Ultra— the ultimate cordless robotic cleaner. Its four brushless motors offer robust 492 LPM suction, ensuring every inch, including the waterline, is debris-free. Enhanced with WavePath™ 2.0 for smart navigation and dual-layer filtration for microscopic purity, this device promises a spotless pool. Enjoy up to three hours of meticulous cleaning, manageable through the Aiper app for a customized, hassle-free pool maintenance experience.

PRODUCT DETAILS

Ultra Cleaning Power

The pinnacle of the Scuba 2024 series is the Scuba N1 Ultra. Designed specifically for in-ground pools, this product has four brushless motors that deliver an unprecedented 492 LPM of powerful suction to thoroughly remove all debris from pools.

Horizontal Waterline Cleaning

The industry-first cordless robotic pool cleaner capable of horizontal waterline cleaning, the N1 Ultra possesses precise flow, dual drainage outlets, and an infrared sensor system for navigation and obstacle avoidance while cleaning pools

Double Filtration

Equipped with a dual-layer filtration system, the N1 Ultra is designed to remove all contaminants and micro-organisms down to 3 microns in size from pools, giving Scuba N1 Ultra owners peace of mind that the pool is spotlessly clean.

WavePath™ Navigation Technology 2.0

Leveraging cutting-edge technology, WavePath™ 2.0 takes advantage of the natural flow of your pool, thereby increasing cleaning coverage. Top-of-the-line sensors allow the device to pinpoint the device location within your pool, delivering the most pristine clean for your pool's floor, walls, and waterline.

Infrared Obstacle Avoidance

Four infrared devices are equipped to the N1 Ultra enabling the device to detect and react to obstacles present in your pool. For maximum cleaning coverage, superior precision, and extended cleaning

capabilities.

Extended Dirt Container

Developed for difficult cleaning tasks, it offers up to three hours of efficient cleaning for pools up to 200 m². It is equipped with a large 7.5 litre dirt container and can handle intensive cleaning with ease.

Optional smart control with the Aiper app

The Scuba N1 Ultra connects wirelessly to Aiper's own communication buoy, giving users access to real-time pool and device data, the ability to set and change cleaning modes and even control the N1 Ultra manually.

Optional Waterline Retrieval

A feature of the Aiper App, Waterline Retrieval allows you to recall your device to the edge of your pool's waterline for easy retrieval and complete convenience. No need to get wet, no fumbling with a hook and pole, the N1 Ultra knows all the best tricks.

Optional HydrolInsight Technology

The Aiper Scuba N1 Ultra arms you with a complete picture of the health of your pool's water by measuring and reporting back to you via the Aiper App the pH value, ORP value, water temperature, and more.

What's in the box

- 1x Aiper Scuba S1 Ultra
- 1x DC Charger
- 1x User Manual
- 1x Retrieval Hook
- 2x Extra PVC Brushes
- 2x Extra 3m Ultra-fine Filter
