

## Wilfa Crispier Air fryer, 1500W / 5L

251949

The WILFA CRISPIER airfryer cooks your favourite food with hot air, even without any added oil, so you can fry with significantly less fat. It allows you to prepare tasty and crispy dishes easily and with less effort. The pre-set programmes make the appliance very quick and easy to use, and with a 3.5L capacity you'll have a large meal cooked in no time.

### PRODUCT DETAILS

#### Crispier - A healthy way to deep fry

Crispier is a deep fryer that allows you to cook your favourite dishes in a healthier way with either little or no oil at all. The fast-circulating hot air ensures perfect results with a crispy outside and a juicy inside.

#### Grill, fry, roast and bake

Easily cook your favourite dishes like chicken, fish, vegetables, pizza or maybe a blueberry pie. With Crispier you can cook dinner, snacks and dessert.

#### 8 preset programmes

The digital display on the deep fryer shows the heat and remaining cooking time. You can also choose from eight preset programmes, or just select the time and temperature yourself. The pre-installed programmes make it easy to choose the perfect settings for your cooking. When the food is halfway done, the machine beeps three times as a reminder to turn or shake the food. It also comes with a handy removable basket for easy shaking.

#### Capacity

With its 1500 W and 3.5 litre capacity, you can cook a large amount of food while keeping its design compact and taking up less space in your kitchen.

#### Faster cooking

The air fryer heats up very quickly, saving you valuable time and reducing your cooking time by 25-50%. Plus, it's perfect for reheating leftovers, giving your food a crispier, healthier and quicker reheat. You can even put aluminium moulds in the deep fryer, unlike a microwave.

#### Easy cleaning

With few parts in contact with the food, cleaning the air fryer is quick, easy and smooth.

## Highlights
