PRODUCT DETAILS

Say good morning to our Contemporary Jug Electric Kettle, a sophisticated addition to elevate your kitchen space. With its sleek exterior and refined polished details, this kettle will look smart on any kitchen countertop. Crafted with a full stainless-steel interior and integrated limescale filter, it not only enhances the taste of your beverages but also ensures a durable and easy-to-clean construction.

Equipped with a powerful 3kW heating element, this cordless kettle brings water to a boil quickly, perfect for those busy mornings or afternoon tea rushes! With 360 swivel base, it offers effortless usability for both left and right-handed individuals, providing flexibility and convenience in placement. The large, soft-closing lid, operated with a simple touch, facilitates hassle-free refilling, while the glass kettle sided water level windows allows you to see that you have just the right amount of water.

With a capacity ranging from 0.5L to 1.5L, this smart kettle is versatile enough to accommodate any hot beverage needs - whether it's a quick cup of tea for yourself or a larger batch for guests.
