PRODUCT DETAILS

Create & print stunning labels

myFirst Camera Insta Wi comes with a new feature that allows you to create and print labels in different sizes. You can now label your file, document, meal box, stationery, and more, no matter if you are in the office, school, or at home.

Customization of label

With the various templates of patterns, symbols, and icons, create your own special labels that suit your need. You could also adjust the size of the icon, enter text, change the font type, add on border style, and many more.

Create video & take pictures

This camera does it all – film video, take pictures, and snap selfies. With our handy lens switcher, you don't even need to turn the camera around. Picture quality is guaranteed with a 12MP digital camera plus rear and wide-angle selfie lens.

Wirelessly transfer images

Transferring photos manually from a memory card to other devices might be a tedious process sometimes. Now, you can connect your phone to Insta Wi via Wi-Fi and transfer your photos wirelessly. No more hassle transmitting data from one end to another.

Instant print photo in 10 seconds

See the excitement on your kid's face when they get a printout in 10 seconds on what they have captured. As the camera is using thermal fast print technology, photos will be printed in black and white at the quickest speed.

Smaller in size & we print more

Insta Wi is much smaller in size compared to another label printer, but we are able to do more. With

57mm wide label, you could customize the font size as big you wish or you could also choose different sizes of label and print with smaller font size.

Built-in rechargeable battery

See the excitement on your kid's face when they get a printout in 10 seconds on what they have captured. As the camera is using thermal fast print technology, photos will be printed in black and white at the quickest speed.

Fun filter frame template

With filters and frames pre-installed in the camera, kids can snap and print cute and interesting photos or stickers to create photo albums, name tags, scrapbooks, etc. Watch your kids create their own masterpiece

myFirst Camera Insta Wi App

Insta Wi is much smaller in size compared to another label printer, but we are able to do more. With 57mm wide label, you could customize the font size as big you wish or you could also choose different sizes of label and print with smaller font size.
