

GoPro Tripod + Ball Head

255859

This compact tripod has legs that can be locked at an angle, extended, laid flat and adjusted to give you a solid camera platform on any surface. The ball head rotates a full 360° and tilts up to 90° to help you lock in the best camera angle.

PRODUCT DETAILS

This ultra-versatile tripod is designed to give you a solid camera platform on any surface from perfectly flat to jagged and rocky. Its legs can be locked at an angle, extended, laid flat and adjusted to help you get the perfect shot—even in sand or water. The removable ball head rotates a full 360° and tilts up to 90° to help you lock in the best camera angle. It collapses down to 15cm and is crafted from durable lightweight aluminum, making it easy to bring along on any adventure. You can also set up invisible pole shots with a 360 camera by attaching a compatible 1/4-20 extension pole. Mount the pole to the ball head or remove the ball head and attach it directly to the tripod depending on what you need for the shot.

Features

- 2-section telescoping legs can be extended independently up to 20cm, locked in at an angle or laid flat depending on the terrain
- Collapses down to 15cm, making it handy for everyday use and to take anywhere
- Legs collapse and completely close so you can use the tripod as a small hand grip
- Ball head rotates 360° and tilts up to 90°, allowing you to change your camera angle without adjusting your mounting setup
- Thumb lever adjuster is strong enough to lock your camera in place and prevent it from slipping while letting you make precise adjustments on the fly
- Rubberized camera platform keeps your camera in place after you've set it in the position you want
- Attach a compatible 1/4-20 extension pole (either to the ball head or to the base with the ball head removed) to capture invisible pole shots with a 360 camera
- Crafted from durable aluminum, waterproof and specially designed to lock out sand that can damage moving parts

Compatibility

- Any camera with 1/4-20 mounting threads
- Tripod adapters
- Extension poles with 1/4-20 mounting threads

What's Included

- Tripod
- Ball Head
