

GoPro Light Mod 2

256706

Add compact yet powerful LED lighting to your next adventure or studio setup with Light Mod 2. Increased battery life, runtimes and brightness make it easier than ever to illuminate your subject with wide, smooth, even light for ultra crisp footage. The upgraded design includes a cutout that lets you plug it in while the diffuser's installed to push capture times even further. Attach it to your GoPro with Media Mod or the Point-and-Shoot Grip,¹ or use it as a standalone light with GoPro mounts.

PRODUCT DETAILS

Feature Bullets

- 1 Upgraded LED light illuminates your subject better than ever for ultra crisp capture
