

Valerion Ceiling mount kit for VisionMaster and StreamMaster

255416

Ceiling mount designed for the VisionMaster and StreamMaster Series. Made from aluminum alloy and supports up to 10 kg. Features include 360° rotation, $\pm 20^\circ$ tilt, and flexible height adjustment (12–40.5 cm). The multi-slot base allows secure mounting with 4+ attachment points. Built-in cable management keeps setups tidy. Includes a quick-release module and key-lock system for added security.

PRODUCT DETAILS

Designed for the VisionMaster and StreamMaster Series

This sleek and durable ceiling mount is made from high-strength aluminum alloy, securely supporting up to 10 kg for a reliable, long-lasting installation.

Secure Mounting with Multi-Slot Base

The mounting base features multiple slots, providing 4 or more attachment points for a stable and secure ceiling connection.

360° horizontal rotation and $\pm 20^\circ$ vertical tilt

Giving you the freedom to find your perfect viewing angle.

Hidden Cable Design

Maintain a tidy setup with hidden cable management, seamlessly integrated into the mount for a clean and functional appearance.

Flexible Height Adjustment

Offering a minimum height of 12 cm and an adjustable range of 31 to 40.5 cm, providing versatile installation options for various setups.

Quick Release & Lock System

The quick-release module enables fast and easy projector attachment and removal, while the integrated key-and-lock system ensures enhanced security and peace of mind.
