

Valerion Desktop Gimbal Stand for VisionMaster and StreamMaster

255499

Compatible with Valerion VisionMaster and StreamMaster Series, this aluminum alloy mount supports devices up to 10kg. It features 360° horizontal and tilt adjustment for flexible positioning, along with a dual-axis support system for added stability. Silicone pads on the gimbal protect against scratches. Fits devices with standard 1/4"-20 screw mounts.

PRODUCT DETAILS

Versatile Compatibility & Durable Design

Compatible with Valerion VisionMaster and StreamMaster Series products, this mount is crafted from high-quality aluminum alloy and supports up to 10KG for reliable strength and long-lasting durability.

Flexible Angle Adjustment

Enjoy precise adjustments with 360° horizontal angle support, allowing you to tailor the projection angle to suit various spaces and needs.

Enhanced Stability with Dual-Axis Support

Designed with a robust dual-axis support system, this mount provides exceptional stability, ensuring a secure and balanced projection.

Scratch-Resistant Silicone Protection

The gimbal's support frame, equipped with silicone pads on the sides and bottom, offers superior protection against scratches and damage to your device.
