

Dangbei

Dangbei rechargeable 3D Glasses with DLP-Link

252771

Elevate your home cinema experience with Dangbei's 3D glasses, swiftly syncing with all DLP Link projectors in just 6 seconds. Boasting a 60-hour rechargeable battery, these lightweight spectacles are both portable and compatible with everyday eyewear. Enjoy a brighter, clearer view with swift LCD lens response and easy left/right eye view toggling.

PRODUCT DETAILS

Versatile Compatibility

The active shutter 3D glasses use DLP-Link as the sync method and can quickly work with all DLP Link projectors within 6 seconds.

Built-in Battery

The glasses feature a 60mAh rechargeable Li-ion battery that can work continuously for 60 hours on a single charge.

Lightweight and Portable

The glasses are super lightweight, making them easy to carry. They can also be worn in conjunction with regular glasses.

Clearer and Brighter

With a light valve LCD lens response time of under 2.0ms and 40% light transmittance, the glasses deliver a more realistic picture.

Left/Right Eye Rotation

Simply press the power button to flip the left and right eye views for synchronizing, no need to operate the projector.
