GB-001 Curtis, Portable Bluetooth Speaker with Cassette Player

254933

The GB-001 brings the boombox into a whole new era. Inspired by the iconic ‘80s design, this neo-retro gem is packed with cutting-edge technology. Following the success of the WE-001 cassette player, it arrives just in time —with cassette sales skyrocketing by over 400% in the past decade —to bring analog sound roaring back.

With 104 watts of power delivered through four Hi-Fi speakers(two woofers for deep bass, two tweeters for crisp highs), the GB-001 turns any space into a full-on concert hall. It plays and records both Type I and Type II cassettes with a premium-grade mechanism, and an adjustable motor for ultra-stable playback.

But this boombox is more than a retro revival —it’s fully modern: Bluetooth 5.4, a rechargeable and replaceable battery, microphone input, fine-tuned sound controls (bass, treble, balance),backlit VU meters, and even an amp function for your guitar. Ready for a rap battle or a karaoke night? Plug in two wireless mics and put on a show.

PRODUCT DETAILS

RETRO LOOK, MODERN SOUND
The GB-001 isn't just a cassette player/recorder that rivals home cassette decks—it also delivers exceptional stereo sound with a full-spectrum stereo image, thanks to its separate left and right woofers and tweeters.

Whether you're listening to cassettes, using a wired connection, or streaming via Bluetooth, its four Hi-fi class loudspeakers (two powerful woofers for extended bass response and two soft dome tweeters for refined voices and treble) provide an impressive 104 Watts of total power output. That's enough to compete with the best connected speakers available.

But power is nothing without control. That's why we've included special features like dynamic power control to reduce distortion, refined equalization for a natural “We Are Rewind” sound signature, and a spatialization function for a wider, more immersive stereo experience.

RECORD & PLAYBACK AT ITS FINEST
This boombox features a top-of-the-line cassette deck mechanism, complete with a powerful, user-adjustable motor that includes internal speed regulation.

For recording and playing, it supports both Type I and Type II (chrome) cassettes with optimized biasing. To ensure low-noise recording and the best possible frequency response, it uses an active AC erasing head.

Like some of its predecessors, this boombox is equipped with two backlit VU meters, giving you control over playback and recording levels.

Finally, it includes a microphone input with adjustable level for live recordings.

ALL EYEZ ON YOU
The GB-001 reimagines the iconic 80s boombox with a sleek, neo-retro design that truly stands out.

Crafted from premium materials like brushed aluminum, it blends durability with modern aesthetics. It includes all the classic features of the era’s boomboxes, such as woofers, tweeters, a cassette player/recorder, VU meters, and a folding handle, all within a rectangular design.

Beneath its retro appearance, this "2.0" boombox is packed with modern technology, featuring Bluetooth 5.4 and a rechargeable, replaceable battery.

PAIR IT, PLAY IT
The GB-001 isn't just a cassette player/recorder that rivals home cassette decks—it also delivers exceptional stereo sound with a full-spectrum stereo image, thanks to its separate left and right woofers and tweeters.

Whether you're listening to cassettes, using a wired connection, or streaming via Bluetooth, its four Hi-fi class loudspeakers (two powerful woofers for extended bass response and two soft dome tweeters for refined voices and treble) provide an impressive 104 Watts of total power output. That's enough to compete with the best connected speakers available.

But power is nothing without control. That's why we've included special features like dynamic power control to reduce distortion, refined equalization for a natural “We Are Rewind” sound signature, and a spatialization function for a wider, more immersive stereo experience.

HAVE A BLAST WITH ITS PARTY MODE
Unleash the energy at your next gathering and transform any room into your own concert venue. Sing along to your favorite songs using the microphone input, or plug in your guitar and use the system as an amplifier to add a rock edge.

Capture unforgettable moments with the cassette player's live recording feature, creating lasting mementos of your event.

Technical specifications
AUDIO SPECIFICATIONS

- Frequency response: 40 - 20,000 Hz

POWER AMPLIFIERS

© 2026 All rights reserved. Note: Specifications and design are subject to change without notice.

- Two 32 W Rms / 4 Ohms Class D amplifiers for the woofers
- Two 20 W Rms / 6 Ohms Class D amplifiers for tweeters
- Total power: 104 W rms

BATTERY

- User replaceable Built-in 14.8V 3000mAH Li-Ion battery pack
- Autonomy:
  - On speakers from ~10 hours in tape mode and up to ~15 hours in Aux mode , depending on sound volume.
  - On headphones from ~15 hours in tape mode and up to 28 hours in Aux mode

CASSETTE PLAYBACK

- 2-track stereo playback
- VU Meters for power monitoring
- Frequency response: 40 - 12,500 Hz
- Signal-to-noise ratio: >55 dB weighted
- Distortion: THD <0.5%
- Wow & Flutter: ~0.15% typ.
- Headphones output power: 2x2 mWrms / 32 Ohms
- Pitch adjustment accessible on the rear cover

CASSETTE RECORD

- Stereo recording
- Aux Input level: 200m Vrms
- Frequency response: 40 - 11,500 Hz
- Signal-to-noise ratio: >55 dB weighted
- Distortion: THD <1%
- VU Meters to adjust the recording level

WEIGHT

- 6,81 kg

DIMENSIONS

- 50,6 x 25,1 x 17,9 cm (incl. handle)

POWER SOURCE

- Built-in lithium-Ion rechargeable and user-replaceable battery
- Nominal voltage: 14.8V
- Nominal capacity: 3000mAH
- Mains power supply 18V4A

© 2026 All rights reserved. Note: Specifications and design are subject to change without notice.

CONNECTIVITY

- Bluetooth 5.4
- Line input stereo jack 3,5 mm
- Microphone input mono 1mVrms
- Headphones stereo jack 3.5mm

TOP PANEL CONTROLS

- Source selection by rotary switch
- Volume control knob
- Bass control knob
- Treble control knob
- Balance control knob
- Type I - Type II selection by rotary switch

What's in the box

- Boombox
- Power adapter
- Quick start guide
- Manual

Specs

Product Attributes

EAN:	3770028251124
Manufacturer number:	GB-001
Product weight:	6.81 kilograms

Battery

Charging time (0 - 100%):	4 5
Charging:	Proprietary
Battery type:	Built-in
Total battery life:	15

Speaker Features

Frequency response:	40-20000
Total effect:	104
Elements:	Woofers: 2x32 Watt, Tweeters: 2x20 Watt

Connections and Controls

Audio inputs:	3.5mm Jack
Bluetooth version:	Bluetooth 5.4
