Silk´n LumiLips LED Mask

256775

Ditch the fillers and embrace the future of beauty innovation with Silk'n LumiLips. This revolutionary LED device smooths, plumps, and rejuvenates your lips naturally, all from the comfort of your home. Experience cutting-edge technology for youthful, radiant lips!

PRODUCT DETAILS

Silk'n LumiLips is ergonomically designed to perfectly contour your lips and surrounding skin, ensuring maximum LED exposure for targeted, professional-grade results. No fillers. No filters. Just naturally fuller, more beautiful lips.

Why You'll Love Silk'n LumiLips:

- Naturally Enhances Lip Volume: Targets the fat layer in the lips to create a fuller, more voluminous look—no injections needed!
- Boosts Your Natural Lip Color: Enhances microcirculation, collagen production, and hydration, bringing out the best in your lips for a rosy, youthful glow.
- Rejuvenates The Lip Area: Targets smile lines, feather lip lines, pigmentation, and marionette lines with an improved, larger design for comprehensive rejuvenation.
- Ultra-Fast Results: Just 3-5 minutes per session, with visible improvements in just 2 weeks.
- No Needles, No Downtime: A completely non-invasive beauty upgrade with zero pain and zero recovery time.
- Next Level LED Technology: Features 30 LEDs with 120 LED bulbs including multiple wavelengths between 605nm-1072nm for the ultimate lip transformation.
- Hygienic & Convenient: Designed with a removable, waterproof silicone mouthpiece made from FDA food-grade silicone.
- Cordless & Rechargeable: Equipped with USB-C charging for effortless, on-the-go beauty anytime, anywhere.

Two Powerful Modes for Maximum Results:

- Mode 1 – Volume, Firmness & Anti-Aging (Red 633nm + Dark Red 660nm + Near-Infrared 830nm + Deep Near-Infrared 1072nm): Stimulates collagen and elastin for plumper, firmer lips, reduces fine lines and wrinkles, and boosts circulation for a naturally flushed, youthful look.
- Mode 2 – Even Skin Tone & Soothing Glow (Amber 605nm + Dark Red 660nm + Near-Infrared 830nm + Deep Near-Infrared 1072nm): Reduces pigmentation and redness for a smooth, even-toned finish, while calming, nourishing, and promoting collagen for a healthy, radiant glow.

Bring the clinical power of advanced LED light therapy into your daily routine, and enjoy ultra-fast,
