

HOVERAir

HOVERAir AQUA Charging Hub

256614

Fast-charge up to two HOVERAir AQUA drone batteries at once. Compact, travel-ready design with a quick power-check button.

PRODUCT DETAILS

Keep your batteries ready between flights with a compact charging hub made for HOVERAir AQUA. It supports charging two batteries at once, so you can spend less time waiting and more time out on the water.

Dual Battery Charging:

Supports parallel charging of up to two batteries at the same time for a more efficient charging setup.

Fast Charging:

Using the Charging Hub with a 65W power adapter, one battery charges fully in 52 minutes, or two batteries in 85 minutes.

Quick Battery Check:

The compact design includes a built-in button, so you can easily check battery level with a simple press.

Compact and Travel Ready:

Designed to be easy to pack and convenient to bring along for charging at home or on the go.

Key Specs

- Charging Temperature: 0° to 40°C
- Charging Speed: Using the Charging Hub with a 65W power adapter, one battery charges fully in 52 minutes, or two batteries in 85 minutes.
