Unlimited Printing Without Ink

Multiple Note & Greeting Templates

High Quality Thermal Paper

Selfie Lens

## Instant Memories

myFirst Camera Insta 2 is designed to add joy and fun to your child's learning process. Unlike a polaroid photo, the camera insta uses thermal printing to create vivid and clear photos without needing to wait for the pic to dry. No shaking needed! Your child will be printing memories immediately with our 10-second printing capabilities!

## Unlimited Printing

You only need to use thermal paper and get snapping! Using thermal printing technology, you won't ever have to worry about refilling ink, ever! Each roll is capable of printing up to 80 sheets. We're also giving 3 rolls of thermal paper to go with your camera insta. That's 240 shots!
