Momcozy S12 Pro Breast Pump, Single

254202

Discover freedom with the Momcozy S12 Pro portable breast pump – your essential companion for relaxed and efficient pumping, no matter where you are. This innovative breast pump has been specially designed for mothers who want to make the most of their valuable time. Thanks to the hands-free operation, you can easily go about your everyday life while the pump works quietly and discreetly - with less than 45 dB, you won't disturb your baby even at night.

The stimulation mode mimics baby's natural sucking and promotes better milk flow while sparing the nipples. The easy-to-use LED indicator lets you know the battery status at all times, even in low light conditions, and the automatic shutdown after 30 minutes saves valuable energy.

The Momcozy S12 Pro puts you in control for maximum flexibility, comfort and efficiency when pumping. Make your everyday life easier and enjoy the freedom to express milk for your baby when and where you want.

PRODUCT DETAILS

Størrelse **SINGLE, DOUBLE**

Innovative motor design

Experience easy and effortless pumping thanks to our compact motor for maximum mobility and comfort, anytime, anywhere.

Perfect fit for maximum comfort

choose from 4 sizes (17/19/21/24 mm) for a personalized fit that guarantees maximum comfort and efficiency.

Stronger suction power for more efficiency

The improved sealing technology increases the suction power and ensures particularly effective and gentle milk dispensing.

Long-lasting battery for stress-free pumping

Up to 9 sessions on a single charge - your breastfeeding journey is reliably supported by our outstanding battery performance.

Easy operation with LED display

The user-friendly LED display gives you effortless control and overview – for even more convenient use.

Quiet operation for discreet pumping

Enjoy discreet and quiet extraction with a noise level below 50 dB – ideal for any environment, whether at home or on the go.

Automatic shut-off for safety

Thanks to the intelligent automatic shut-off after 30 minutes, energy saving and safety are always guaranteed.

Customizable pumping experience

Customize extraction with 9 suction levels and 3 modes for all-round comfortable and efficient pumping according to your preferences.

Powerful Suction Strength

Benefit from a suction power of 270(±5)mmHg, which ensures fast and effective milk dispensing.

Fast charging and long-lasting use

Charge the pump in just 1.5 hours and enjoy up to 140 minutes of operation – the equivalent of about 5-6 sessions.
