Momcozy Nipple Cream - Vegan

254251

The Momcozy Nipple Cream is a safe, multifunctional product made from six plant-based ingredients, free from preservatives, petroleum, lanolin, and fragrance. It soothes sore nipples, acts as a pump lubricant, and moisturizes skin, with a smooth, non-greasy finish that spreads and absorbs easily.

PRODUCT DETAILS

Safe and natural

Our nipple cream is made from 100% natural ingredients, ensuring safety for both mother and baby. Free from petroleum, parabens, lanolin and fragrance, it's a worry-free choice for breastfeeding moms.

Convenient application without washing

Thanks to the gentle and safe formula, there is no need to wash off before breastfeeding. This allows for a simple and practical application that saves you time and effort.

Soothes and protects

Our cream is specially formulated to soothe and protect sore nipples. This keeps breastfeeding comfortable and pain-free, and allows you to concentrate fully on the precious bond with your baby.

100% natural ingredients

Momcozy's unique formula contains only six botanical ingredients: shea butter, olive oil, candelilla wax, sunflower oil, sea buckthorn oil and calendula extract – nothing else!

Safety for mother and baby

Free from petroleum, preservatives, lanolin and fragrances. Simply apply a small amount to the nipples and areola for immediate relief – no washing required.

Exclusive, refined technique

Our nipple balm is made with a special technique that guarantees a fresher, less greasy consistency. This ensures better absorption and intensive moisturizing, while the delicate scent makes it even more pleasant to use.

Versatile use

The cream not only soothes and moisturizes the nipples, but can also be used as an effective lubricant

for the Momcozy breast pump. A thin layer on the breast pump flange increases comfort when pumping. It is also excellent for moisturizing lips and dry skin areas.

Thoughtful gift for moms

This vegan balm is ideal for breastfeeding moms, especially those looking for a lanolin-free alternative. Perfect for baby equipment or hospital bag – a thoughtful gesture to show your care and best wishes to a nursing mother.
