Go Solo, Take Selfies

Detachable Design - Easily handle selfies within 10m (32.8ft), making every shot as perfect as you want it to be.

Instant Charging

Magnetic Design - Snap it into the handle, and it's ready for an instant charging, keeping you free from low battery anxiety.

Magnetic Fill Light

Reversible Design - Easily adjust the fill light for either front or rear camera shooting by pressing the safety locks to unlock it.

Light Up the Night - Maximum brightness up to 120lux@0.5M, providing unparalleled lighting effect to capture more details in the darkness.

*Data sourced from Hohem Laboratory.

3-Color Temperature - Switch between three color temperatures at will, enhancing your shots of every scene.

Side Wheel Control - Seamless dimming from 4% to 100%, adjustable via the side wheel for precise control over the light brightness.

All-In-One Design

205mm Extension Rod - Effortlessly capture friends, pets, and beautiful scenery in your selfies.

Adjustable Hinge - Shooting from multiple angles and levels, even at ground level, is all within your grasp.

Built-In Tripod - Built-in tripod is ready to free your hands. Just pull it out for time-lapse photography, remote selfies and live streaming.

Shoot with Hohem Joy

Person Tracking- Whether the phone camera is moving or the person is in motion, smart tracking precisely keeps the target in focus at all times.

*Used within Hohem Joy app

Object Tracking - Be it a basketball, a coffee cup, or your hand movements and personal items, simply frame the target for accurate tracking.

*Used within Hohem Joy app

*Objects need a clear, consistent shape and sufficient size to be easily recognized.

Creative Studio - Discover tailored shooting techniques and camera movements based on trending scenes, fueling your creative inspiration.

Various Templates

Inception, Panorama, Dolly Zoom & Motion Timelapse.

3-Axis Stabilization

iSteady 8.0 Stabilization - The next-gen stabilization algorithm ensures your footage stays smooth and steady whether you're walking, running, or performing dynamic camera movements

300g Payload - With enhanced motor torque, it delivers steady shooting for larger smartphones like iPhone 15 Pro Max, HUAWEI Mate 60 Pro and other non-foldable smartphones up to 7 inches.

*For more details please refer to the Smartphone Compatibility List.

11-H Battery Life

For continuous video creation from dawn to dusk, no more worries about low battery

*It lasts for 11 hours in balanced and stationary state, and 4 hours with the fill light at maximum brightness. *Data sourced from Hohem Laboratory.

Fit in Your Pocket

Compact and lightweight, your go-anywhere photography companion. Just fold and tuck it into your pocket or bag after shooting.

1/4"-20 Screw Hole

Expansion Port - Screw hole reserved on the bottom for all kinds of tripod with 1/4"-20 screw, allowing easy shooting in various scenarios.
