

HOVERAir

HOVERAir X1 PRO/PROMAX Charging Hub

255675

The HOVERAir Charging Hub for the X1 PRO and PROMAX can charge two batteries in parallel. It fully charges one battery in 45 minutes and two batteries in 60 minutes. The compact hub also allows you to check the battery level with a simple button press and is designed for fast charging when used with the HOVERAir 65W Power Adapter

PRODUCT DETAILS

Fast Charge:

The HOVERAir X1 PRO/PROMAX charging hub supports up to 65W fast charging. 45 minutes to fill one battery, 60 minutes to fill two batteries at the same time. Whether you're in a hurry to capture that perfect shot or simply want to maximize your flying time, the X1 PRO/PROMAX's fast charge capability has you covered, offering more time in the air.

Smart Charging:

The HOVERAir X1 PRO/PROMAX's battery charger prioritizes the fullest battery first, allowing you to minimize downtime and get back in the air as swiftly as possible. With the press of a button, you can easily check your battery level and monitor the charging progress through intuitive LED lights, giving you full control over your flight preparation.

Portable Design:

Sleek and compact, the HOVERAir X1 PRO/PROMAX charger doubles as a portable companion for your adventures. It can be unplugged and used to carry extra batteries, ensuring you're always equipped for extended flights.
