PRODUCT DETAILS

Your compact travel buddy
With its durable and lightweight magnesium body, the GOVIEW® ZOOMR™ 8x26 is designed specifically for your outdoor and travel adventures where brilliant image quality is essential. With its zoom factor, you can bring the most incredible subjects 8x magnified close to you. But with the large field of view, you won't lose sight of your subject even when you're on the move.

And to make sure your GOVIEW® ZOOMR™ 8x26 always catches your eye, you can choose from five modern colors.

Discover the unique details of your world with style and innovation
Inspired by the demands of professionals, GOVIEW® ZOOMR™ binoculars and monoculars come with an elegant design and many technical refinements for your use in nature, travel, sports or daily life.

To provide you with a new optical experience, the GOVIEW® ZOOMR™ series combines many years of technological know-how with a modern and colorful design language, under which many highquality details are hidden: the binoculars and monoculars are protected against water and fogging by a nitrogen filling and are particularly compact, durable and robust thanks to their magnesium or glass-fiber reinforced plastic housing - without weighing much.

The complete optics are optimized for a maximum field of view and all lenses are multi-coated. In addition, the innovative design guarantees maximum ergonomics, so that you have a firm grip on your binoculars on all adventures - and if you don't have a hand free, the high-quality carrying strap ensures that you always have them at hand.

If you wear glasses, you can easily adjust the binoculars and monoculars of the GOVIEW® ZOOMR™ series to your needs with the extendable eyecups - alternatively, you can of course adjust your eyesight with the aluminum diopter adjustment. In addition, each pair of binoculars and monoculars comes with a wide range of accessories: a high-quality carrying case, protective caps, a cleaning cloth, our PORTR™
