Enjoy up to 50 hours of continuous play with the built-in rechargeable battery.

PRODUCT DETAILS

Størrelse **2-PACK, 1-PACK**

Compatibility

The 3D glasses are compatible AWOL VISION LTV-2500, LTV-3500, Vanish TV & other DLP-LINK 3D projectors. With very few simple settings, you will have an immersive 3D 4K home theater with your AWOL Vision.

Long lasting battery

Built-in high-capacity rechargeable batteries allow you to play up to 50 hours continuously, which means you can enjoy 15 films with 1 single charge.

Ergonomic design

The 28 Grams super light weight of soft PC material won't make you feel any discomfort. If you are wearing myopic glasses, the large frame design of these 3D glasses is also suitable for you.

Wide viewing angle

178° wide viewing angle enables you to watch large screen movies without distortion, providing you with a superior 3D visual experience.

Bright and Vivid

Less than 1.5 ms response and 38% high transmittance bring you the most vivid, bright, and lossless 3D effect.
